

## **Members & Affiliation**

**The DOOS Project must facilitate and embrace observing element contributions from multiple agencies and countries, through a coordinated portfolio of resources and high-level oversight of the scientific and technical design, sub-projects and interfaces to the user community.**

The present day DOOS Project is the result of the efforts of several individuals over the past several years. The dedication and contribution of key individuals have been pivotal in bringing the necessary focus and resources to bear on behalf of the deep ocean observing community.

Primary among these individuals are the lead authors and programs leaders that contributed to the DOOS Consultative Draft. In 2016 many of these key stakeholders and sponsors participated in a series of events, including a global workshop conducted at Scripps Institution of Oceanography. Based on these activities the DOOS Project has now identified a Steering Committee under the leadership of three Co-Chairs.

The DOOS Steering Committee will provide oversight and work with the DOOS community to conduct a series of activities, which will include the outlining of specifications for new deep-ocean EOVs, an audit of the availability and accessibility of data, and to draft a DOOS Science and Implementation Guide.

## DOOS Steering Committee Members and Affiliations

Name	Country	Affiliation
<u>Co-Chairs</u>		
Lisa Levin	USA	Scripps Institution of Oceanography
Patrick Heimbach	USA	University of Texas at Austin
Henry Ruhl	UK	National Oceanography Centre
<u>Members</u>		
Simone Baumann-Pickering	USA	Scripps Institution of Oceanography
Kristina Gjerde	Poland	International Union for Conservation of Nature
Bruce Howe	USA	University of Hawaii at Manoa
Felix Janssen	Germany	Alfred-Wegener Institute
Katsuro Katsumata	Japan	Japan Agency for Marine-Earth Science and Technology
Deb Kelley	USA	University of Washington
Nadine LeBris	France	Universite Pierre et Marie Currie
Craig Smith	USA	University of Hawaii at Manoa
Sun Song	China	Institute of Oceanology, Chinese Academy of Sciences
Adam Soule	USA	Woods Hole Oceanographic Institution
Karen Stocks	USA	Scripps Institution of Oceanography
R. Venkatesan	India	National Institute of Ocean Technology Ministry of Earth Science
Bob Weller	USA	Woods Hole Oceanographic Institution
